if the eggs are removed from the incubator two or three times for a period of no more than 15 minutes each, such cooling will make little difference in the total incubation time required for hatching.

### **From Egg to Chick A Guide for Successful Incubation and**

Are You Born With All of Your Eggs? Conventional science has taught women for years that they are born with all of the eggs they will ever have. The theory has been that women are born with one to two million immature eggs at birth, and will slowly begin losing them over the course of their lifetimes.
