Architectural design process is the scientific study of existing ideas, thought and thinking in getting detail solution of an architectural design.

### **Concept of Creativity and Innovation in Architectural**

In this paper, we introduce sketching reality," the process of converting a free-hand sketch to a realistic-looking model. We apply this concept to architectural designs. As the sketch is being drawn, our system periodically interprets its 2.5D geometry by identifying new junctions, edges, and faces, and then analyzing the extracted topology.
