Still, the value in this book are the associations made between our minds and the universe, and of course the reality we create. The last five pages, Appendix 2, was the clearest and most enjoyable: "How Cosmic Consciousness Behaves" and "How Every Cell Mirrors the Cosmos. But clearly the statements are the

interpretations of the authors.

This review is based on an advanced copy provided by the author. Writing a science book pitched at the general audience is often a difficult task. The author, Scott Bembenek, of "The Cosmic Machine" does a wonderful job of drawing the reader in by telling the story of the major concepts in physics through its historical figures.
