Horse meat is the culinary name for meat cut from a horse. It is a major meat in only a few countries, notably in Central Asia, but it forms a significant part of the culinary traditions of many others, from Europe to South America to Asia. The top eight countries consume about 4.7 million horses a year. For the majority of humanity's early existence, wild horses were hunted as a source of protein.

The code of etiquette in Japan governs the expectations of social behavior in the country and is considered very important. Like many social cultures, etiquette varies greatly depending on one's status relative to the person in question. Many books instruct readers on its minutiae. Some conventions may be very regional practices, and thus may not exist in all regions of Japan.
