This typology breaks down the traditional boundaries between the nonprofit and private sectors and draws definition to this new institutional animal--part business-part social--the social enterprise. In doing so, the typology explores how institutions have combined a mix of social values and goals with commercial business practices and how they have come up with ownership models, income and ...

Sociotechnical systems (STS) in organizational development is an approach to complex organizational work design that recognizes the interaction between people and technology in workplaces. The term also refers to the interaction between society's complex infrastructures and human behaviour. In this sense, society itself, and most of its substructures, are complex sociotechnical systems.

Motivation is the reason for people's actions, willingness and goals. Motivation is derived from the word motive which is defined as a need that requires satisfaction. These needs could also be wants or desires that are acquired through influence of culture, society, lifestyle, etc. or generally innate. Motivation is one's direction to behavior, or what causes a person to want to repeat a ...

Over the past two years, state legislators across the country have launched an unprecedented series of initiatives aimed at lowering labor standards, weakening unions, and eroding workplace protections for both union and non-union workers. This policy agenda undercuts the ability of low- and middle-wage workers, both union and non-union, to earn a decent wage.
