Philosophies Adaptation: environment over culture. The sixties was a breakthrough decade for environmental anthropology, with functionalism and system theories prevalent throughout. The rudiments of the system theories can be seen in Marcel Mauss' Seasonal Variation of Eskimo, echoed later in Julian Steward's work. Although later, system theories were later harshly criticized for narrowly ...

Improving the health status of Indigenous peoples<sup>1</sup> in Australia is a longstanding challenge for governments in Australia. The gap in health status between Indigenous and non-Indigenous Australians remains unacceptably wide.<sup>2</sup> It has been identified as a human rights concern by United Nations committees<sup>3</sup>; and acknowledged as such by Australian governments<sup>4</sup>.

The social determinants of health (SDH) are the conditions in which people are born, grow, work, live, and age, and the wider set of forces and systems shaping the conditions of daily life.

### **WHO | Social determinants of health**

Conditions in the places where people live, learn, work, and play affect a wide range of health risks and outcomes. <sup>1</sup> These conditions are known as social determinants of health (SDOH). We know that poverty limits access to healthy foods and safe neighborhoods and that more education is a predictor of better health. <sup>2,3,4</sup> We also know that differences in health are striking in communities with ...

Human-caused environmental changes are creating regional combinations of environmental conditions that, within the next 50 to 100 years, may fall outside the envelope within which many of the terrestrial plants of a region evolved. These environmental modifications might become a greater cause of global species extinction than direct habitat destruction.

Rocket is an important leafy vegetable crop and a good source of antioxidants and anticancer molecules such as glucosinolates and other sulfur compounds. Rocket is also a hyper-accumulator of nitrates which have been considered for long time the main factors that cause gastro-intestinal cancer. In this review, the content of these compounds in rocket tissues and their levels at harvest and ...
