Educational psychology is the branch of psychology concerned with the scientific study of human learning. The study of learning processes, from both cognitive and behavioral perspectives, allows researchers to understand individual differences in intelligence, cognitive development, affect, motivation, self-regulation, and self-concept, as well as their role in learning.

What to Expect From an Evaluation by Marianne S. Meyer, M.A. Note: This article is reprinted from the "Parent to Parent" column, in Perspectives (Fall 2003), published by The International Dyslexia Association. A good evaluation for a learning disability is not as simple as "having your child tested". First, it requires preparation on your part.

2 Division of Clinical Psychology Formulation is a core skill for clinical psychologists at all levels and in all specialties. These guidelines outline best practice for the profession of clinical psychology. This document defines psychological formulation as a hypothesis about a person’s difficulties, which links theory with practice and guides the intervention.
