This course will provide clinicians with an enhanced knowledge of therapeutic exercise as it applies to persons with neurological disease/diagnoses, highlighting how therapeutic exercise in this population is different from the musculoskeletal diagnoses. Live Webinar

### **Maximizing Recovery with Exercise for Those with**

Last but not least, as Cooney et al. (2013) famously theorized, the neurological benefits of exercise are moderately more effective at managing depression as compared to other forms of treatment methods. Although the study was limited to a few relatively small trials, the results were all in favor of utilizing exercise as a form of treatment for depression.
