Introduction. Rather than providing a dry collection of equations, this article will focus on the experimental uncertainty analysis of an undergraduate physics lab experiment in which a pendulum is used to estimate the value of the local gravitational acceleration constant g . The relevant equation for an idealized simple pendulum is, approximately, $\theta = \theta_0 \cos(\omega t)$

Acol System - Conventions and Methods The attempt has been made to present the principles of the Acol bidding system separately. The bidding system is considered an evolving bidding system, in that there are no strict rules, to which all players adhere. The Acol bidding system is largely employed in standard British tournament play and also widely used in other parts of the world such as ...
