The syllabuses of all the language sections are " with the exception of mother tongue " identical and the same standards are required to be met.

Pages - Syllabuses and Attainment descriptors

Ethics involves systematizing, defending, and recommending concepts of right and wrong behavior. A central aspect of ethics is "the good life", the life worth living or life that is simply satisfying, which is held by many philosophers to be more important than traditional moral conduct.. Most religions have an ethical component, often derived from purported supernatural revelation or guidance.

This article examines the most prominent ethical theories from the view point of economic rationality. Authors argue that utilitarian perspective which used to be connected with classical concepts of rationality in economics is not the only approach to understand reasoning behind the human behaviour.
