

**industrial revolution chapter test pdf**

The Industrial Revolution was the transition to new manufacturing processes in Europe and the US, in the period from about 1760 to sometime between 1820 and 1840. This transition included going from hand production methods to machines, new chemical manufacturing and iron production processes, the increasing use of steam power, the development of machine tools and the rise of the factory system.

**Industrial Revolution - Wikipedia**

Sustainable farming Small farms fit References Small family farms are the backbone of a community, a nation, and of society as a whole. A landscape of family farms is settled, balanced and stable, and generally sustainable.
