Factors Influencing Land-Use and Land-Cover Change

Land use involves the management and modification of natural environment or wilderness into built environment such as settlements and semi-natural habitats such as arable fields, pastures, and managed woods. It also has been defined as "the total of arrangements, activities, and inputs that people undertake in a certain land cover type."

Classification. The concept of institutional racism re-emerged in political discourse in the late and mid 1990s after a long hiatus, but has remained a contested concept that has been critiqued by multiple constituencies. Institutional racism is the differential access to the goods, services, and opportunities of society.
