Welding is a fabrication or sculptural process that joins materials, usually metals or thermoplastics, by using high heat to melt the parts together and allowing them to cool causing fusion. Welding is distinct from lower temperature metal-joining techniques such as brazing and soldering, which do not melt the base metal.. In addition to melting the base metal, a filler material is typically ...

Yes, thank you WTKTT. And I never stated this specifically in my meandering diatribe down below, but the reason, and the only reason, the Battlement Creek Fire Staff Ride Development Committee was nasty to me while Shawna was so sweet to me, because she is such a smooth operator, is because I started insisting they were on the wrong track with the lessons that should have been learned from ...
