The Barbary lion was a *Panthera leo leo* population in North Africa that is regionally extinct today. This population occurred in Barbary Coastal regions of Maghreb from the Atlas Mountains to Egypt and was eradicated following the spreading of firearms and bounties for shooting lions. A comprehensive review of hunting and sighting records revealed that small groups of lions may have survived ...

The American lion (*Panthera atrox* or *Panthera leo atrox*) “ also known as the North American cave lion “ is an extinct pantherine cat related to the lion that lived in North America during the Pleistocene epoch (340,000 to 11,000 years ago). Genetic analysis has revealed that it was the sister lineage to the Eurasian cave lion. It was part of the Pleistocene megafauna, a wide variety of ...

Healthy marine species like whales, sea turtles, coral, and salmon are important for maintaining balanced and thriving ocean ecosystems. We work to prevent marine species populations from decline and extinction, protect them from human activities, and monitor activities that might impact them so they are around for future generations.

PRESIDENT'S FEBRUARY MESSAGE: Service With Grace A number of years ago (the exact date lost in the fog of time) three local mothers were concerned about children living on this island and surrounded by water without having access to swimming lessons. They discovered that the Navy Base had Red Cross WSI (Water Safety Instructor) classes available.
