Most of researchers compare the neural and statistical techniques by comparing their accuracy prediction while forgetting the NNs instability criterion. This paper studies the stability of different network classifier results compared to the statistical methods. rate probability density function (pdf) of each classifier. The

USING STATISTICS TO ASSESS THE PERFORMANCE OF NEURAL NETWORK CLASSIFIERS Neural network (NN) approaches to pattern classification problems both complement and compete with statistical

approaches. Each approach has unique strengths that can be exploited in the design and evaluation of classifier systems.

USING STATISTICS TO ASSESS THE PERFORMANCE OF NEURAL

An experimental learning of Fuzzy Neural Classifiers Mahendra H. Kondekar ... In this paper we have compared the performance of training algorithms of fuzzy neural classifiers namely EFHLSNN and EFHSNN on three different multivariate ... in Multivariate statistics, which is a form of statistics Analysis. The classifiers that we have selected ...

An experimental learning of Fuzzy Neural Classifiers

Statistical and neural classifiers to detect traffic operational problems on urban arterials. ... This paper reports on an effort to apply both statistical and neural classifiers to the problem of detecting different types of incidents, or more specifically traffic operational problems, on urban arterials. This section presents the statistical ...
