We present a composition-based logic toward international expansion by emerging market firms (EMFs) â€“ firms that use compositional investment, compositional competition, and compositional collaboration to create a unique competitive advantage in global competition. This view explains how EMFs creatively adopt a composition-based international strategy, enabling them to compensate for their ...

Contextualizing international strategy by emerging market

Emerging technologies are technologies that are perceived as capable of changing the status quo. These technologies are generally new but include older technologies that are still controversial and relatively undeveloped in potential, such as preimplantation genetic diagnosis and gene therapy which date to 1989 and 1990 respectively.. Emerging technologies are characterized by radical novelty ...
