DM Steelworks, based in Ruislip, London, undertake structural steelwork and architectural metal work design, fabrication and erection services across the Southeast of England.

DM Steelworks Ltd - Structural Steelwork & Architectural

The purpose of a structural steelwork specification is to state what materials and products should be used and how work (fabrication and erection) should be carried out, in order to ensure that the completed structure meets the designer's assumptions and the client's needs. Design standards, such as the Eurocodes, give design rules that are valid only if strength, dimensional accuracy and ...

A steel building is a metal structure fabricated with steel for the internal support and for exterior cladding, as opposed to steel framed buildings which generally use other materials for floors, walls, and external envelope. Steel buildings are used for a variety of purposes including storage, work spaces and living accommodation. They are classified into specific types depending on how they ...

Steel building - Wikipedia

CE Marking of structural steelwork is a declaration by us, the manufacturer, that our product meets certain public safety requirements. The public safety requirements are a set of Essential Characteristics that each product must satisfy and these characteristics are given in the product's harmonised standard.
