Careers. Our Masters programmes are designed to prepare you for a successful career, wherever in the world you plan to work. Employers expect advanced communication and technical skills, team-working and independent research, project-management and the very latest specialist knowledge from their postgraduate recruits.

Economics and Econometrics MSc - University of Exeter

In mathematics, orthogonality is the generalization of the notion of perpendicularity to the linear algebra of bilinear forms. Two elements u and v of a vector space with bilinear form B are orthogonal when $B(u, v) = 0$. Depending on the bilinear form, the vector space may contain nonzero self-orthogonal vectors. In the case of function spaces, families of orthogonal functions are used to form a ...
